

**analycat**<sup>®</sup>  
AI. HELPING. YOU.

At Analycat, we believe that technology is meaningless unless it connects with human beings in a way that's helpful.

That's why we're the only company that can provide you with customised, AI-driven software solutions that push the boundaries of supercomputing to give you better results in an ethical, innovative and agile way.

The world said it was impossible, so we went out and built it ourselves...

## Do you wish you could read all the company data yourself?

Consider RADAR your personal data butler. This tool is designed to make your company's big data more accessible in real-time, serving you only what you need to know when you need to know it.

## Do you operate in the following sectors?

Transport | Agriculture | Insurance | IOT | Scada

**SEE HOW RADAR CAN HELP YOU**
